

Job?ToP! vermittelt Jugendliche an Ausbildungsbetriebe

Ausbildungsplatz

Landkreis Esslingen

„I would like my child to receive a good vocational training, but in what?“ Mr. James P.

Do you face the same situation as Mr. P? You would like to help your children to enter a vocation, but do not know how to go about this? The German education system and the many vocations are very complex.

We help you free of charge! We support your daughter or your son in their search for a trainee position!

We correct their application documents.

We prepare your child for interviews and practise recruitment tests.

We provide the young people with an honest assessment regarding their vocational plans.

We organise factory tours so that you can see what your children learn there.

Also we are at your service during training.

You, the parents, are the most important contact persons where training, choice of vocation and job search are concerned.

If you have queries, please call us.
